1. Newsletter.

- a. We reviewed and prioritized the list of housing topics to be covered over the next few months. For December, we will feature Center Communities of Brookline.
- b. For this issue, we will also have an article about the Service Referral Committee.
- c. For the next issue, we plan report back on the two senior-related warrant articles presented at the fall Town Meeting.

2. Website. John reported that there have been a few spikes in usage; we were not able to identify the reasons for this. Either this month or soon after, we will have a newsletter article about the web site and what can be found there.

3. Education Committee. The program on “the retirement crisis—maintaining your standard of living when you retire” is this evening at the Senior Center. Confirmed for April 9 are speakers Caryl Rivers and Rosalind Barnett, authors of the book: *The Age of Longevity; Re-Imagining Tomorrow for our New Long Lives*.
